## FINANCING THE JUDICIAL SYSTEM

Each year the judicial system collects millions of dollars in fines, bond forfeitures, fees, and costs; however, because of obvious ethical questions that would arise if court judgments produced court income, this money is not used to finance the judicial system (Table 7 on page 22). All money collected by the judiciary, except as indicated on page 25, is disbursed to other public entities such as school districts, municipalities, counties, and the state general fund.

Because the state judicial system generates very little of its own funding, it must be financed by money from other sources, primarily the state general fund. As illustrated in the budget allocation data at left, the judiciary's share of the state's budgetary pie is very small in comparison to the rest of state government.

The state is responsible for funding the operations of the Supreme Court, the State Court Administrator's Office, circuit courts, clerks of court, court services programs, judicial training and Community Based Services. State funding provides for salaries and benefits for the employees in these operations. This year's personal services expenditures were \$25.9 million for the system's full and part-time employees. The state also funded operating costs, including encumbrances, of \$7.6 million this fiscal year, which included travel, contractual services, supplies and materials, and capital assets.

In addition to state funding, city and county governments are required by

state law to pay for certain court-related expenses. Each county is responsible for supporting court operations by paying all jury and witness fees, transcript costs, and attorney fees for defense of the indigent. Counties are also required to provide operational facilities for the circuit court, clerk of court, and court services. Operational facilities include office space, courtrooms, jury rooms, and other space needed to support the court's operations. In addition, many counties maintain their own county law libraries, funded in part by a law library fee collected by the UJS on each civil filing made in circuit court.

Municipalities are generally required to fund those activities which are necessary to enforce municipal ordinances and bylaws. These activities include jury fees, witness fees, transcript costs, and attorney fees for indigent defendants as applicable to city ordinance violation. Municipalities also provide facilities for some magistrate courts consisting of office space, courtrooms, and other meeting rooms to support formal court activities.

The State Court Administrator's Office manages the fiscal operations of the Unified Judicial System through the Office of Budget and Finance which assists the Supreme Court in preparing and submitting the annual budget, administer the annual operating budget, and manage a uniform accounting system for the receipt and disbursement of all funds handled by circuit and magistrate courts. The following definitions apply to the information listed in Table 6 on page 21.

These amounts do not include payments made directly to county auditors or treasurers, city collection agents, or sums recovered by counties pursuant to a statutory lien.

## **Receipts**

---

Chart 3, below, shows some of the types of receipts collected by clerk of court offices throughout the state.

**Court-appointed attorney fees** are defense costs initially paid by the county or city for an accused person who is unable to pay for a lawyer. When deemed feasible, the court assists in collecting these fees from a defendant by requiring repayment. In the chart below, only that portion of court-appointed attorney fees repaid by defendants is shown. The chart does not include fees paid by defendants directly to the counties.

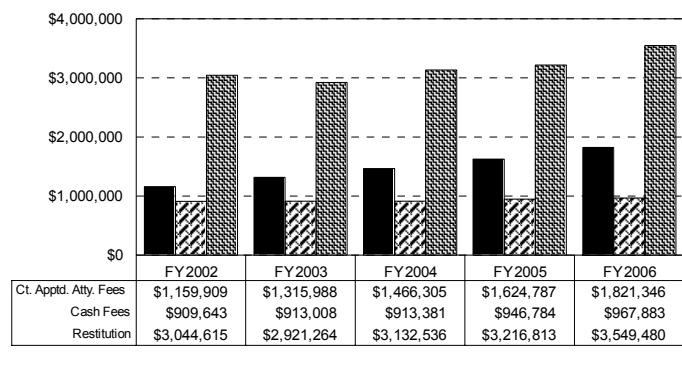

**Cash fees** is money paid by the public for services rendered by the court. Cash fees include such things as filing fees (the fee paid at the beginning of non-criminal court actions such as divorces or small claims actions), fees for providing certified transcripts of records, and fees paid for photocopying records.

**Restitution** is the amount of money which the court requires an offender to pay to the victim of their crime. The collection, accounting, and disbursement of restitution is the joint responsibility of the court services officer and the clerk of court. It is one of the ways in which the court system assists victims of crime in recovering financial losses. Restitution is ordered in addition to fines or incarceration.

In addition to direct repayment received from a defendant, a percentage of costs collected on all criminal convictions is set aside and returned to the counties to reimburse them in part for the cost of court-appointed attorneys. Apportionment of these costs is specified by SDCL 23-3-53 and is explained in some detail in the following material under "Fines and Costs."

Chart 9 on page 28 compares total costs and repayment of court-appointed attorney expenses over the five most recent fiscal years.

## **Fines and Costs**

---

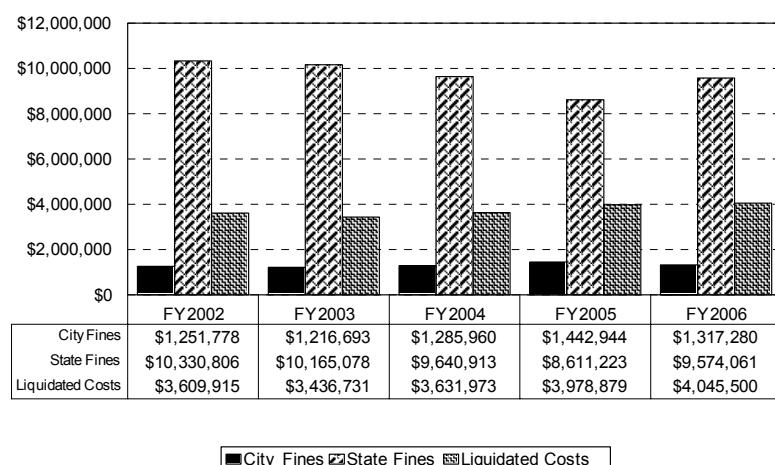

Chart 4, below, compares fines and liquidated costs collected for criminal cases over the last five years. **State fines** are fines assessed for violations of state laws and go to the school district of the county in which the violation occurred. **City fines** are fines assessed for violations of municipal ordinances and are returned to the city general fund (65%) and the state general fund (35%). **Liquidated costs** of \$27.00 are added to all fines for violations of state statutes, criminal offenses, and county or municipal traffic regulations (SDCL 23-3-52). The court occasionally waives all or part of the liquidated cost assessment if a defendant's financial hardship is evident.

Liquidated costs are split in compliance with SDCL 23-3-53. Approximately 63% is used for law enforce-

ment training (highway safety training, operating the drug enforcement unit, purchasing state law enforcement equipment, operating the state crime laboratory, training corrections personnel, prosecutors and UJS personnel) and 37% is returned to the counties on a percentage basis to assist in paying public defenders and court-appointed attorneys, operating costs associated with the 911 telecommunicator training, and costs associated with the defense for abused and neglected children. Liquidated costs are distributed annually by the State Treasurer in accordance with SDCL 23-3-53 as illustrated in Table 9 on page 29.

Over the past five years city fines state fines, and liquidated costs combined have remained relatively constant.

**Chart 4. Selected Receipts Compared  
City Fines, State Fines and Liquidated Costs**

## **Child Support**

Child support is one of the largest types of receipts processed by clerks of court. The clerk maintains a complete record of payments received and forwards it based on arrangements made with the recipient parent.

In the past total receipts and child support receipts have generally shown a gradual increase, however, with the transfer of payments on any new or modified child support to DSS effective October 1, 1998 the child support receipt category began showing a significant decline.

## **Disbursements**

Charts 5, 6 and 7 illustrate the volume of receipts disbursed by clerks of court.

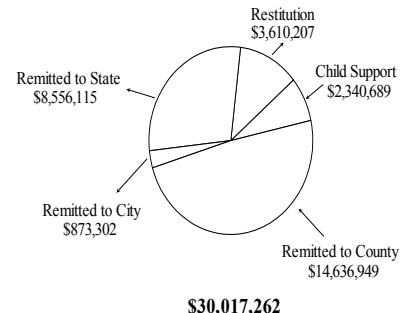

**Disbursements to cities** are primarily city fines collected by the court system. The amount remitted to the cities is 65% of the total city fines collected. The remaining 35% is remitted to the state.

**Disbursements to the state** include liquidated costs and the 35% of city fines mentioned above. The state remittance over the past three years has steadily increased.

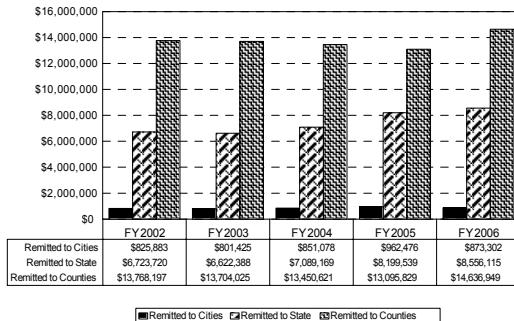

**Disbursements to counties** include state fines -- including funds returned to school districts in accordance with Article VIII, § 3, of the South Dakota

Constitution -- costs, and forfeitures, and various fees for civil filings. The county and state remittance over the past few years has increased significantly.

## **Court-Appointed Attorney Costs**

---

SDCL 23A-40-7 provides that the governing board of any county or municipality is responsible for providing legal counsel to anyone within their jurisdiction who is charged with a Class 1 misdemeanor or felony. If the county maintains a public defender's office, judges or magistrates will assign this office to represent indigent defendants. In counties where there is no public defender system, a local attorney will be appointed.

The cost of court-appointed representation is initially borne by the county in which the charge is levied. The judge may assess attorney costs against the defendant as a part of a sentence. There is also a provision for the creation of a lien against a defendant's real or personal property (SDCL 23A-40-11 and -12).

Whether represented by court-appointed counsel or by a public defender's office, and regardless of whether or not the defendant is convicted, the defendant is expected to repay the cost of the court-appointed attorney.

In addition to the costs repaid directly by the defendant, a \$3.00 fee is collected for each criminal conviction including traffic violations. This is paid into a court-appointed attorney fund established by state law. This year the fund provided an allocation to each county of approximately 10.2% of the court-appointed attorney costs incurred. This figure is shown in the second column of Table 9 on page 29.

Table 9 also shows county expenditures and defendant repayment as reported to the State Treasurer by the counties.

Chart 8 on page 28 graphically compares court-appointed attorney costs and repayment by circuit for the past fiscal year. The Minnehaha (Second Circuit) and Pennington County (Seventh Circuit) Public Defender's Offices have full-time legal staffs funded by the counties to provide for the defense of economically disadvantaged persons accused of crimes. Lawrence and Butte Counties (Fourth Circuit) also share the expense of a full-time public defender's office.

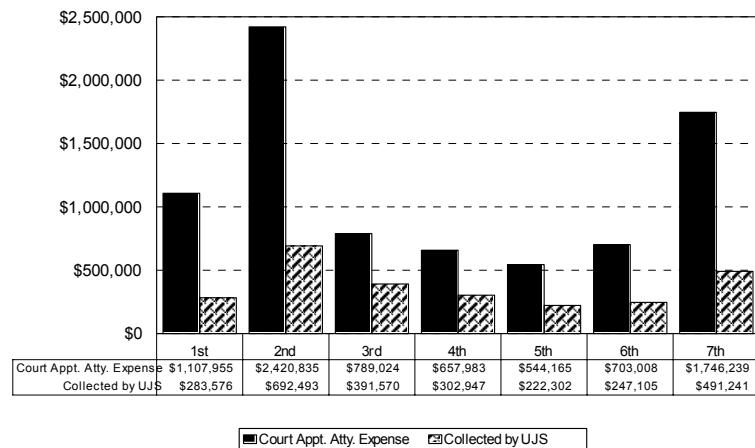

The data contained in Table 10 on page 30 shows the raw approximate average cost to each county for each court-appointed attorney case. This average does not include costs recovered by the counties either from direct payments by defendants, state reimbursements, or county lien collection efforts. When cost recovery is included in the calculation, the average payment per appointment is substantially lower. These costs were computed by dividing the total payment for the fiscal year by the total number of court-appointed attorney cases. Table 10 also shows the percentage of total Class 1 misdemeanor and felony filings which resulted in court appointment of an attorney.

Chart 8 on page 28 shows that the difference between the cost of court-appointed attorneys and the amount the UJS collects has increased over the past five years. The cost for court

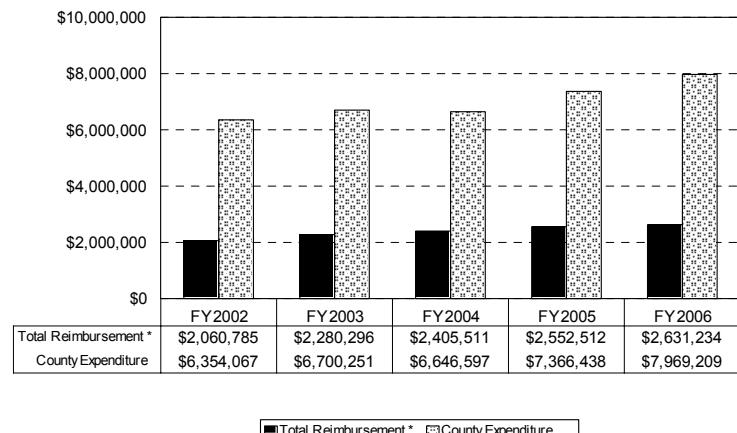

-appointed attorneys is difficult to predict from year to year because it depends on the number of arrests by

law enforcement agencies and the number of criminal prosecutions filed by the state's attorney in each county.

## Travel by Circuit Personnel

By state law a circuit judge is to be available to hold court in each organized county in the state. Due to the limited number of circuit judges available and the rural nature of this state, most judges, court reporters and court services officers must travel throughout their circuits to perform their pro-

fessional duties. Circuit and magistrate judges' mileage is listed in Table 11 and court services officers' mileage is listed in Table 12. Circuit mileage comparisons are illustrated in Chart 10 on page 32.
