Ziebach	Polycom	Yes	Court Reporter	Current statutes	Yes	WYSE terminal for clerk, one laser printer, flag, TV/VCR	

- **ADA:** With the exception of Ziebach County, all courthouses are fully ADA accessible. One audix system for the hearing impaired is available in the Fourth Circuit. Three real-time court reporters are also available for simultaneous transcription.
- **Presentation equipment:** Each courthouse has TV/VCR units.
- **Recording systems:** "FTR Gold" is a portable electronic digital recording system which can be transported and used in any of our courthouse locations. Proceedings will be maintained on the computer's hard drive and saved on a recordable CD.
- **Video equipment:** A fixed ITV (interactive videoconferencing) system is installed in the Magistrate Courtroom in Lawrence County. portable ITV equipment is available in Butte County, in Meade County and in Perkins County. Portable ITV units are also installed in the Lawrence and Meade County Jail facilities. A portable ITV install is pending in Harding County. The video interactive systems allow "in custody" defendants to appear in court without leaving the security of the jail facility and witnesses to appear for court trials alleviating the expense of travel.
